AEMP DASHBOARD REDESIGN SPECIFICATION v1.0

Applied Education Ministry Project — March 2026

Prompt:

Acting as a top 1% digital designer in the world, with 30+ years. of web and mobile design with and to end UI layout, data, function, user flow, and sitemap design experience, use planning mode to put together a precise website design spec document to redesign the attached Dashboard main page.

Summary Version:

COLOR SYSTEM

- Primary Deep: #1E3A5F (Midnight Blue)
- Primary Accent: #D4AF37 (Gold)
- Secondary Teal: #2A9D8F
- Background Primary: #0F172A (Dark Mode)
- Background Secondary: #1E293B
- Text Primary: #F8FAFC
- Glass Light: rgba(255,255,255,0.05) + blur(20px)

TYPOGRAPHY

- Headings: Plus Jakarta Sans (Bold)
- Body: Inter (Regular)
- Display: 48px/700 | H1: 32px/700 | H2: 24px/600 | Body: 14px/400

LAYOUT STRUCTURE

plainCopy

```
[NAVIGATION SIDEBAR - 280px]
├─ Logo + Collapse Toggle
├─ Main Nav: Vision | Measure | Impact | Profile
├─ Canvas Workflow (Canvas 100%, Rocks 0/4, Capabilities 13, Features 0)
└─ User Menu + Logout

[MAIN CONTENT]
├─ HEADER: Breadcrumb + Notifications + User
├─ ZONE 1: Mission Control Hero (Progress + Rocks Status)
├─ ZONE 2: Business Model Canvas (Interactive 9-Block Grid)
└─ ZONE 3: Metrics Cards + Quick Actions
```

KEY COMPONENTS

1. Navigation Sidebar

- Glassmorphism background with gold accent on active
- Collapsible to 72px icon-only mode
- Progress indicators for each section

2. Mission Control Hero

- Animated gradient mesh background
- Circular progress visualization for Canvas completion
- Empty state for Rocks with CTA to create first Rock
- Glass container with gold border top

3. Business Model Canvas (9-Block)

- 3x3 interactive grid
- Each block: Glass card, hover elevation, expandable modal
- Color-coded by category (Partners=Gold, Activities=Teal, etc.)
- Completion checkmarks, drag-drop reordering

4. Metrics Cards

- Icon + Label + Primary Value + Progress Bar + Context
- Staggered entry animation
- Hover: lift effect with shadow increase

INTERACTIONS

- Page Load: Staggered fade-up sequence (300ms-1000ms)
- Hover: Cards lift -4px, border glows gold
- Buttons: Scale 1.02, magnetic effect
- Progress: Animated counting + smooth fill

RESPONSIVE

- Desktop: 12-col grid, 1440px max
- Tablet: 8-col, collapsed sidebar

- Mobile: Bottom tab nav, single column, accordion canvas

ACCESSIBILITY

- WCAG 2.2 AA compliance
- Keyboard navigation full support
- High contrast + reduced motion modes
- Screen reader optimized

ANIMATION CSS

cssCopy

```
/* Entry */
@keyframes fadeUp {
  from { opacity: 0; transform: translateY(20px); }
  to { opacity: 1; transform: translateY(0); }
}

/* Gold Pulse */
@keyframes goldPulse {
  0%, 100% { box-shadow: 0 0 0 0 rgba(212,175,55,0.4); }
  50% { box-shadow: 0 0 0 8px rgba(212,175,55,0); }
}
```

EMPTY STATES

- Custom illustrations (Lottie animations)
- Clear next actions ("Create First Rock")
- Template library access
- Progressive onboarding checklist

TECH SPECS

- Icons: Phosphor Icons (24px, 1.5px stroke)
- Performance: FCP <1.5s, TTI <3.5s, 60fps animations
- Framework: React/Vue compatible, CSS Grid/Flexbox

I'll analyze the current AEMP Dashboard design and create a precise website design specification document for a complete redesign. Let me first examine the document

more carefully and search for current design trends and best practices for ministry/educational dashboards.
Search

modern dashboard UI design trends 2024 2025 ministry education platform dashboard design best practices nonprofit dashboard UX design patterns

26 results

Based on my analysis of the current AEMP Dashboard and extensive research into modern dashboard design trends, I'll create a comprehensive design specification document for a world-class redesign.

Full Version:

AEMP Dashboard Redesign Specification

Applied Education Ministry Project — Mission Control Interface

Version 1.0 | March 2026

1. EXECUTIVE SUMMARY

The current AEMP Dashboard requires a complete visual and UX transformation to meet 2025-2026 design standards. This specification outlines a premium, ministry-focused dashboard that balances spiritual warmth with professional operational excellence. The redesign prioritizes clarity, accessibility, and actionable intelligence while maintaining the organization's educational and faith-based mission.

Key Improvements:

- Transform static metrics into dynamic, contextual insights
- Implement modern glassmorphism with spiritual color palette
- Create progressive disclosure for complex ministry data
- Establish clear visual hierarchy for decision-making workflows

---

2. DESIGN SYSTEM FOUNDATION

2.1 Color Architecture

Primary Palette (Spiritual/Professional Fusion):

- Primary Deep: `#1E3A5F` (Midnight Blue — Trust, Stability, Ministry Authority)
- Primary Accent: `#D4AF37` (Gold — Divine Excellence, Premium Quality)
- Secondary Teal: `#2A9D8F` (Growth, Educational Progress)
- Secondary Coral: `#E07A5F` (Warmth, Community, Urgency when needed)

Neutral Scale:

- Background Primary: `#0F172A` (Deep Slate — Modern Dark Mode Base)
- Background Secondary: `#1E293B` (Card Surfaces)
- Background Tertiary: `#334155` (Elevated Elements)
- Text Primary: `#F8FAFC` (Near White)
- Text Secondary: `#94A3B8` (Muted Blue-Gray)
- Text Tertiary: `#64748B` (Subtle Labels)

Semantic Colors:

- Success: `#10B981` (Emerald — Achievement, Completion)
- Warning: `#F59E0B` (Amber — Attention Required)
- Error: `#EF4444` (Rose — Critical Issues)
- Info: `#3B82F6` (Blue — Informational)

Glassmorphism Effects:

- Glass Light: `rgba(255, 255, 255, 0.05)` with `backdrop-filter: blur(20px)`
- Glass Medium: `rgba(255, 255, 255, 0.08)` with `backdrop-filter: blur(24px)`
- Glass Heavy: `rgba(30, 58, 95, 0.6)` with `backdrop-filter: blur(32px)`

- Border Subtle: `rgba(255, 255, 255, 0.08)`
- Border Accent: `rgba(212, 175, 55, 0.3)` (Gold glow)

2.2 Typography System

Font Families:

- Primary (Headings): `Plus Jakarta Sans` — Modern geometric sans-serif with warmth
- Secondary (Body): `Inter` — Highly legible, professional body text
- Accent (Quotes/Scripture): `Crimson Pro` — Elegant serif for inspirational content

Type Scale:

Table

Level	Size	Weight	Line Height	Usage
Display	48px/3rem	700	1.1	Hero metrics, page titles
H1	32px/2rem	700	1.2	Section headers
H2	24px/1.5rem	600	1.3	Card titles
H3	18px/1.125rem	600	1.4	Subsection labels
Body Large	16px/1rem	400	1.6	Primary content
Body	14px/0.875rem	400	1.5	Standard text

Caption	12px/0.75rem	500	1.4	Labels, timestamps
Micro	10px/0.625rem	600	1.2	Badges, tags

2.3 Spacing & Grid

Base Unit: 4px

Spacing Scale:

- `xs`: 4px
- `sm`: 8px
- `md`: 16px
- `lg`: 24px
- `xl`: 32px
- `2xl`: 48px
- `3xl`: 64px

Grid System:

- Desktop: 12-column grid, 24px gutters, max-width 1440px
- Tablet: 8-column grid, 16px gutters
- Mobile: 4-column grid, 12px gutters

Border Radius:

- `sm`: 6px (Buttons, inputs)
- `md`: 12px (Cards, containers)
- `lg`: 16px (Modals, panels)
- `xl`: 24px (Hero sections)
- `full`: 9999px (Pills, avatars)

3. LAYOUT ARCHITECTURE

3.1 Global Navigation (Persistent Sidebar)

Left Sidebar (280px collapsed to 72px):

plainCopy

```
┌──────────────────────────────────┐
│  ⚡ AEMP          [Collapse ▼]    │ ← Logo + Toggle
├──────────────────────────────────┤
│  🎯 VISION        → Inspire       │ ← Active State (Gold accent)
│  📊 MEASURE       → Impact        │
│  🚀 IMPACT        → Profile       │
├──────────────────────────────────┤
│  ── CANVAS WORKFLOW ──            │ ← Section Label
│  🎨 Canvas (100%)                 │ ← Progress Indicator
│  🪨 Rocks (0/4)                   │ ← Status Badge
│  ⚙️ Capabilities (13)             │
│  📦 Features (0)                  │
│  🔧 Enablers (0)                  │
├──────────────────────────────────┤
│  ── QUICK ACTIONS ──              │
│  [+ New Canvas]                   │
│  [+ From Template]                │
├──────────────────────────────────┤
│  👤 Admin User      [●●●]         │ ← User Menu
│  🌙 Dark/Light Toggle             │
│  🚪 Logout                        │
└──────────────────────────────────┘
```

Navigation States:

- Default: Text secondary color, subtle icon
- Hover: Glass medium background, text primary, icon color shift to gold
- Active: Gold left border (3px), glass heavy background, gold icon
- Collapsed: Icons only, tooltip on hover

3.2 Header Bar (Sticky, 72px height)

plainCopy

```
┌──────────────────────────────────────────────────────────────────────┐
│  [Breadcrumb: Home > Canvas > Applied Education]    [🔔] [⚙️] [👤]   │
│  "Welcome back, Administrator"  |  Today: March 20, 2026             │
```

```
│  Last synced: 2 minutes ago                                          │
└──────────────────────────────────────────────────────────────────────┘
```

Elements:

- Breadcrumb Navigation: Contextual wayfinding with dropdown for quick jumps
- Notification Center: Bell icon with pulse animation for unread (red dot)
- Settings Quick Access: Gear icon for preferences
- User Profile: Avatar with online status indicator
- Contextual Subheader: Personalized greeting + system status

3.3 Main Content Area Structure

Dashboard Layout (Three-Zone System):

plainCopy

```
┌──────────────────────────────────────────────────────────────────────┐
│  ZONE 1: MISSION CONTROL (Full Width, 320px height)                  │

│  └──────────────┘ └──────────────┘ └──────────────┘                 │
└──────────────────────────────────────────────────────────────────────┘
```

4. COMPONENT SPECIFICATIONS

4.1 Mission Control Hero Section

Purpose: Provide immediate situational awareness of ministry health.

Visual Design:

- Background: Animated gradient mesh (deep blue to teal) with subtle particle effect
- Glass Container: Rounded 24px, heavy blur, 1px gold border top
- Layout: Asymmetric split (60% progress visualization / 40% action cards)

Left Panel — Vision Progress:

plainCopy

```
┌──────────────────────────────────────┐
│  🎯 Ministry Vision Progress          │
│  ────────────────────────────────────
```

- Hover on progress ring shows tooltip with completion date
- "Create First Rock" button has magnetic hover effect
- Empty state uses Lottie animation (gentle floating rock formation)

4.2 Business Model Canvas — Interactive 9-Block

Transformation from Current: Static grid → Interactive, expandable cards with relationship mapping.

Layout: 3x3 Grid with dynamic sizing

plainCopy

```
┌──────────────┬──────────────┬──────────────┐
│  KEY         │  KEY         │  VALUE       │
│  PARTNERS    │  ACTIVITIES  │PROPOSITIONS  │
│  [3 items]   │  [3 items]   │  [3 items]   │
├──────────────┼──────────────┼──────────────┤
│  KEY         │  [CENTER     │  CUSTOMER    │
│  RESOURCES   │   LOGO]      │RELATIONSHIPS│
│  [2 items]   │              │  [3 items]   │
├──────────────┼──────────────┼──────────────┤
│  CHANNELS    │  CUSTOMER    │  CUSTOMER    │
│  [2 items]   │  SEGMENTS    │  SEGMENTS    │
│              │  [3 items]   │  (cont.)     │
├──────────────┴──────────────┴──────────────┤
│  COST STRUCTURE     │   REVENUE STREAMS    │
│  [4 items]          │   [5 items]          │
└─────────────────────┴──────────────────────┘
```

Card Specifications:

- Default State: Glass light background, 1px border, 12px radius
- Hover State: Elevated shadow, border glows gold, content preview expands
- Active/Expanded State: Modal overlay with full editing capabilities
- Completion Indicator: Small checkmark in top-right if fully populated

Block Details:

Table

Block	Icon	Color Accent	Content Preview
Key Partners	🤝	Gold	Faith Orgs, Legal Pros
Key Activities	⚡	Teal	Content Dev, AI Training
Value Propositions	💎	Coral	Estate Planning Education
Customer Relationships	💬	Blue	Self-service, AI Tutoring
Channels	📡	Purple	Web, iOS, Android
Customer Segments	👥	Green	Families, Leaders, Legal
Key Resources	💎	Indigo	Human-AI Dev Team
Cost Structure	💰	Rose	Platform, Content, Legal
Revenue Streams	💵	Amber	Subscriptions, B2B, Grants

Interaction Patterns:

- Click: Expands to full editing modal with rich text input
- Drag & Drop: Reorder items within blocks (priority sorting)
- Connect Mode: Visual lines showing relationships between blocks (e.g., Partners → Activities)
- AI Assist: Sparkle icon suggests content improvements

4.3 Metrics Cards — Redesigned KPI Display

Current State: Simple stat boxes
New State: Contextual metric cards with trend visualization

plainCopy

```
┌──────────────────────────────────────┐
│  ┌──────┐                            │
│  │ 📊   │  CANVAS COMPLETION         │
│  │100%  │  ──────────────────────────────────────  │
│  └──────┘  Real-time status: Complete│
│            Completed Mar 15, 2026    │
│                                [↗]   │
└──────────────────────────────────────┘
```

Card Anatomy:

1. Icon Container: 48x48px rounded square with gradient background
2. Metric Label: Caption case, secondary text color
3. Primary Value: Display font size, bold, primary color
4. Progress Bar: 4px height, animated fill, gradient based on status
5. Context Line: Micro text explaining status or next action
6. Trend Indicator: Mini sparkline or arrow showing direction

Animation Specifications:

- Entry: Staggered fade-up (0.1s delay between cards)
- Number Count: Animated counting from 0 to value on first view
- Progress Fill: Smooth width transition (0.6s ease-out)
- Hover: Subtle lift (translateY -4px) + shadow increase

4.4 Status Indicators & Badges

Completion States:

- Complete: Green checkmark badge, "100%" with success color
- In Progress: Animated progress ring, amber color, percentage displayed
- Not Started: Subtle outline badge, gray text, "Start" call-to-action
- Overdue: Red pulse animation, warning icon, days overdue count

Count Badges:

- Zero State: Outline style, muted color, "0" with "Add" hint
- Active: Filled style, primary color, number with live indicator dot
- Alert: Filled style, warning color, number with pulse animation

5. INTERACTION DESIGN & MICROINTERACTIONS

5.1 Page Load Sequence

1. 0ms: Background gradient fades in (300ms)
2. 100ms: Sidebar slides in from left (400ms, ease-out)
3. 200ms: Header fades down (300ms)
4. 300ms: Mission Control section expands (500ms, spring easing)
5. 500ms: Canvas cards stagger in (100ms intervals, fade-up)
6. 800ms: Metrics counter animations begin
7. 1000ms: All interactive elements enabled

5.2 Hover States & Feedback

Universal Hover Patterns:

- Buttons: Scale 1.02, shadow increase, background lighten 5%
- Cards: TranslateY -4px, border color shift to gold (300ms)
- Icons: Rotate 5deg, color shift to accent
- Text Links: Underline slides in from left, color to gold

Microinteraction Details:

- Toggle Switches: Elastic snap animation with haptic feedback visual
- Dropdowns: Fade + slide down (200ms), staggered item appearance
- Modals: Scale from 0.95 + fade, backdrop blur intensifies
- Tooltips: Fade in (150ms) with 8px offset arrow

5.3 Scroll Behavior

Parallax Effects:

- Hero background moves at 0.5x scroll speed
- Canvas grid cards have subtle depth layers (translateZ)

Sticky Elements:

- Header becomes compact (56px height) after 100px scroll
- Sidebar remains fixed with independent scroll

Scroll Triggers:

- Elements fade in as they enter viewport (IntersectionObserver)
- Progress bars animate when scrolled into view

6. RESPONSIVE DESIGN SPECIFICATIONS

6.1 Breakpoints

Table

Breakpoint	Width	Key Changes
Desktop XL	1440px+	Full layout, sidebar expanded default
Desktop	1024-1439px	Standard layout, slight compression
Tablet	768-1023px	Sidebar collapses to icons, 2-column grid
Mobile	<768px	Bottom navigation, single column, stacked cards

6.2 Mobile Adaptations

Navigation Transformation:

- Sidebar becomes bottom tab bar (72px height)
- "More" menu holds secondary actions

- Gesture support: Swipe between main sections

Canvas Grid Mobile View:

- 9-block grid becomes vertical accordion
- One block visible at a time with expand/collapse
- "Overview Mode" shows all blocks as mini cards (tap to expand)

Touch Targets:

- All interactive elements minimum 44x44px
- Increased spacing between controls (12px minimum)
- Swipe gestures for common actions (archive, delete)

7. ACCESSIBILITY & INCLUSIVE DESIGN

7.1 WCAG 2.2 AA Compliance

Color Contrast:

- All text meets 4.5:1 ratio minimum
- Large text (18px+) meets 3:1 ratio
- Interactive elements have visible focus indicators

Keyboard Navigation:

- Full tab order logical flow
- Escape key closes modals/dropdowns
- Arrow keys navigate within complex components
- Enter/Space activates all interactive elements

Screen Reader Support:

- Semantic HTML5 structure
- ARIA labels for icon-only buttons
- Live regions for dynamic content updates
- Skip links for main content

7.2 Visual Accessibility Features

User Preferences:

- High Contrast Mode: Pure black/white with gold accents only
- Large Text Mode: Base font size increases to 18px
- Reduced Motion: Disable all animations, instant transitions
- Color Blind Mode: Pattern overlays + text labels for color-coded data

8. EMPTY STATES & ONBOARDING

8.1 Zero-State Design

Rocks Empty State:

plainCopy

```
┌──────────────────────────────────────────┐
│                                          │
│     [Illustration: Mountain formation    │
│      with flag at summit, animated       │
│      clouds drifting by]                 │
│                                          │
│     No Rocks Defined Yet                 │
│                                          │
│     Rocks are your 3-7 most important    │
│     priorities for the next 90 days.     │
│     They keep your ministry focused      │
│     on what matters most.                │
│                                          │
│     [+ Create Your First Rock]           │
│     [Browse Rock Templates]              │
│                                          │
└──────────────────────────────────────────┘
```

Features/Enablers Empty States:

- Iconography suggesting construction/creation
- Clear explanation of what these sections do
- Quick-start templates specific to ministry context

8.2 Progressive Onboarding

First-Time User Flow:

1. Welcome Modal: Mission statement + dashboard overview video (30s)
2. Interactive Tour: Step-by-step highlighting of key areas
3. Contextual Tips: Smart coach marks appearing on first interaction
4. Checklist: "Get Started" tasks with progress tracking
5. Celebration: Confetti animation on first canvas completion

9. TECHNICAL IMPLEMENTATION NOTES

9.1 Performance Requirements

Loading Performance:

- First Contentful Paint: <1.5s
- Time to Interactive: <3.5s
- Lighthouse Performance Score: >90

Animation Performance:

- Use `transform` and `opacity` only for animations
- Implement `will-change` strategically
- Respect `prefers-reduced-motion`
- 60fps target for all interactions

9.2 Asset Specifications

Icons:

- Library: Phosphor Icons (consistent, ministry-appropriate weight)
- Size: 24px default, 20px compact, 32px featured
- Stroke: 1.5px default, 2px for emphasis

Imagery:

- Illustrations: Custom SVG, single-color with gold accents
- Photography: Authentic ministry/education scenes, warm tones
- Empty States: Lottie JSON animations (lightweight, <50KB)

10. CONTENT & COPY GUIDELINES

10.1 Voice & Tone

Primary Voice: Guiding, Empowering, Professional
Tone Variations:

- Instructions: Clear, direct, encouraging
- Success Messages: Celebratory but humble
- Error Messages: Helpful, non-blaming, solution-oriented
- Empty States: Inspirational, forward-looking

10.2 Microcopy Examples

Current → Improved:

- "0/4 Rocks" → "Define your 4 Quarterly Priorities"
- "Canvas: 100% Complete" → "Vision Canvas Complete — Ready for Rocks"
- "13 Programs & Functions" → "13 Capabilities Active"
- "0 Deliverables" → "Start Building Features"

11. ANIMATION KEYFRAMES (CSS)

cssCopy

```
/* Entry Animation */
@keyframes fadeUp {
  from {
    opacity: 0;
    transform: translateY(20px);
  }
  to {
    opacity: 1;
    transform: translateY(0);
```

```
  }
}

/* Gold Glow Pulse */
@keyframes goldPulse {
  0%, 100% {
    box-shadow: 0 0 0 0 rgba(212, 175, 55, 0.4);
  }
  50% {
    box-shadow: 0 0 0 8px rgba(212, 175, 55, 0);
  }
}

/* Progress Fill */
@keyframes progressFill {
  from {
    stroke-dashoffset: 100;
  }
  to {
    stroke-dashoffset: 0;
  }
}

/* Shimmer Loading Effect */
@keyframes shimmer {
  0% {
    background-position: -200% 0;
  }
  100% {
    background-position: 200% 0;
  }
}
```

12. SUCCESS METRICS

User Experience KPIs:

- Task completion rate (Canvas editing): >95%
- Time to create first Rock: <2 minutes
- Dashboard customization engagement: >60% of users
- Mobile session duration: Within 10% of desktop

Business Impact:

- Reduced support tickets for navigation confusion
- Increased daily active usage
- Faster onboarding completion

APPENDIX: DESIGN PRINCIPLES SUMMARY

1. Clarity Over Complexity: Every element serves a clear purpose; decorative elements must also be functional
2. Progressive Disclosure: Surface summary information first; details available on demand
3. Consistent Language: Visual and verbal consistency builds trust and reduces cognitive load
4. Responsive Respect: Design for the user's context, not just their device size
5. Accessible by Default: Inclusion is not a feature but a foundation
6. Delightful Efficiency: Make powerful actions feel effortless and rewarding

Document Owner: Design Lead

Review Cycle: Quarterly or post-major feature release

Stakeholder Sign-off: [Pending]
