1. Executive Summary

The Civic Architect LMS Ecosystem is a five-site, interconnected digital ministry platform that transforms private individuals from uninformed seekers into fully equipped fiduciary architects. Built upon the foundational curriculum of the “As Above, So Below” series — 16 lessons tracing the constitutional chain from the Declaration of Independence through federal and state constitutions to local statutes — this ecosystem delivers legal literacy, estate planning, trust administration, and sovereign capacity-building through a progressive offer engine (Offers 0–4).

The architecture is designed for a **non-developer ministry leader** operating with a **vibe-coder** approach: lightweight WordPress installations augmented by strategic JSON API endpoints, managed

through Cursor IDE with GitHub version control, hosted on a single Hostinger VPS, and enhanced by an AI-assisted toolchain (Abacus AI, CodeSpring, Famous AI, and others).

Core Design Principles

Principle	Implementation
Lightweight	WordPress multisite + WPGraphQL + light-weight JSON endpoints
Non-Developer Friendly	Visual builders (Elementor/Bricks), no raw PHP required
Autonomous Delivery	GitHub Actions CI/CD → Hostinger VPS auto-deploy
AI-Augmented	Content generation, analytics, and support via integrated AI tools
Progressive Disclosure	Each site reveals the next level of the journey
Single Source of Truth	Centralized user/member database, SSO across all sites

---

2. Ecosystem Overview

Traffic Flow Summary

1. **Cold traffic** → `educationministry.org` (free content, lead capture)
2. **Warm leads** → `btpma.org` (membership sign-up, SSO creation)
3. **Active members** → `platform.btpma.org` (LMS content, Offers 1–3)
4. **Advanced members** → `platform.btpma.org/estate-trust-directive` (Offer 4)
5. **Ministry leadership** → `platform.btpma.org/aemp-dashboard` (operations)

---

3. Master Domain Role Matrix

Domain	Primary Role	Audience	Auth Level	Offer(s) Served	Content Type	Revenue Function
`education-ministry.org`	Free public education gateway & lead capture	General public, seekers	Guest / Free account	Offer 0 (Free)	Interactive modules, quizzes, intro videos	Lead generation → upsell
`btpma.org`	Private Membership Association hub & SSO authority	PMA members at all tiers	Authenticated (SSO root)	Router for Offers 0–4	Membership portal, directory, announcements	Membership dues collection
`platform.btpma.org`	LMS delivery engine	Paying members (Operator–Architect)	Authenticated + subscription	Offers 1–3	Full courses, workshops, templates, live sessions	Course/subscription revenue
`platform.btpma.org/aemp-dashboard`	Ministry operations command center	Ministry admin/leadership	Admin + Ministry role	Internal (no direct offer)	Dashboards, analytics, project management	Expense/revenue tracking
`platform.btpma.org/estate-trust-directive`	Estate & trust fiduciary suite	Architect/Fiduciary tier	Authenticated + Offer 4	Offer 4	H.E.M.S., trust docs, directive builders	Premium service revenue

Deduplication Rules

- **User accounts** exist ONLY in the shared database; `btpma.org` is the SSO authority
- **Curriculum PDFs** (the 16 vault files) are NEVER published directly; they feed AI-generated content only
- **Payment processing** is handled ONLY through `btpma.org` (Stripe/payment gateway); other sites redirect
- **Member directory** lives ONLY on `btpma.org`
- **Analytics aggregation** happens ONLY in the AEMP Dashboard

- **Content authoring** happens ONLY on `platform.btpma.org`; other sites embed or link

---

4. Full Offer Engine Map (Offers 0–4)

Offer 0 — The Awakening (Free)

Attribute	Detail
Name	The Awakening: Civic Foundations
URL	`educationministry.org/courses/awakening`
Price	$0 (email required)
CTA	“Begin Your Awakening”
Delivery Site	educationministry.org
Content	4 interactive modules covering: Who can government agents speak to? What is jurisdiction? What is corpus delicti? What is your private capacity?
Learning Archetypes	Social (discussion forums), Analytical (case breakdowns), Structured (step-by-step modules), Conceptual (big-picture videos)
Upsell Path	Module 4 completion → “Ready to build your foundation?” → btpma.org/join
Competency Target	Awareness Level — understands the question exists

Offer 1 — The Foundation (Entry Paid)

Attribute	Detail
Name	The Foundation: As Above, So Below
URL	`platform.btpma.org/courses/foundation`
Price	$97/month or $797/year
CTA	“Lay Your Foundation”
Delivery Site	platform.btpma.org
Content	16-lesson structured curriculum derived from vault PDFs: Declaration of Independence → Constitution → Federal Statutes → State Codes → County Codes. Construction metaphor progression (clearing trees through polishing the finish). Includes: video lessons, workbooks, quizzes, statutory interpretation exercises.
Competency Target	Comprehension Level — can trace the chain of authority

Offer 2 — The Framework (Intermediate)

Attribute	Detail
Name	The Framework: Applied Civic Architecture
URL	`platform.btpma.org/courses/framework`
Price	$197/month or $1,497/year
CTA	“Build Your Framework”
Delivery Site	platform.btpma.org
Content	Applied learning: drafting jurisdiction challenges, creating disqualification motions, understanding TILA (Truth in Lending Act) applications, identifying false personation (18 USC §912), statutory vs. common law employee analysis, practical document creation workshops. Live bi-weekly workshops.
Competency Target	Application Level — can draft and file documents

Offer 3 — The Architect (Advanced)

Attribute	Detail
Name	The Architect: Sovereign Capacity Builder
URL	`platform.btpma.org/courses/architect`
Price	$397/month or $2,997/year
CTA	“Become the Architect”
Delivery Site	platform.btpma.org
Content	Advanced capacity: tort claim filing (FTCA), liability analysis, entity structuring, UCC applications, trust fundamentals, advanced statutory interpretation (ejusdem generis, noscitur a sociis, expressio unius, in pari materia), ministry leadership training. 1-on-1 monthly strategy sessions. Private community access.
Competency Target	Analysis Level — can teach others and handle complex cases

Offer 4 — The Estate Trust Directive (Premium)

Attribute	Detail
Name	The Estate Trust Directive: Fiduciary Mastery
URL	`platform.btpma.org/estate-trust-directive`
Price	$997/month or $7,997/year (or custom packages)
CTA	“Secure Your Estate”
Delivery Site	platform.btpma.org/estate-trust-directive
Content	Full fiduciary lifecycle: H.E.M.S. (Health, Education, Maintenance, Support), Treasury Management, Fiduciary Training, Legal Advocacy Suite, Healthcare Directives, Beneficiary Designations, Will & Family Office, Tax Awareness, Custom Solutions. Dedicated fiduciary advisor. Quarterly trust reviews.
Competency Target	Fiduciary Level — manages estates and trusts for self and others

Offer Engine Revenue Projection Table

Offer	Monthly Price	Annual Price	Target Members (Yr 1)	Projected Annual Rev
Offer 0	$0	$0	5,000 (leads)	$0 (lead value)
Offer 1	$97	$797	500	$398,500
Offer 2	$197	$1,497	200	$299,400
Offer 3	$397	$2,997	75	$224,775
Offer 4	$997	$7,997	30	$239,910
Total			**5,805**	**$1,162,585**

---

5. The Civic Architect Journey Summary

Journey Tiers: Seeker → Operator → Architect → Fiduciary

Stage	Tier Name	Entry Point	Offer	Core Transformation	Exit Competency	Duration
Stage 0	**Seeker**	education-ministry.org	Offer 0	“I didn’t know I didn’t know” → “Now I see the question”	Can articulate why jurisdiction matters	2–4 weeks
Stage 1	**Operator**	platform.btpma.org/courses/foundation	Offer 1	“I see the question” → “I understand the chain of authority”	Can trace Declaration → Constitution → Statutes → Codes	3–6 months
Stage 2	**Builder**	platform.btpma.org/courses/framework	Offer 2	“I understand” → “I can apply it”	Can draft jurisdiction challenges, motions, and responses	6–12 months
Stage 3	**Architect**	platform.btpma.org/courses/architect	Offer 3	“I can apply” → “I can teach and lead”	Can handle complex cases, teach others, lead ministry functions	12–18 months
Stage 4	**Fiduciary**	platform.btpma.org/estate-trust-directive	Offer 4	“I can lead” → “I steward estates and trusts”	Can establish, manage, and administer trusts and estate directives	Ongoing

Journey Progression Triggers

From	To	Trigger Conditions
Seeker → Operator	Complete Offer 0 Module 4 + email opt-in + CTA click	Auto-prompt after quiz score ≥ 80%
Operator → Builder	Complete 12 of 16 Foundation lessons + 1 document submitted for review	Instructor approval + system flag
Builder → Architect	Complete Framework + 3 successful document filings verified	Portfolio review + ministry recommendation
Architect → Fiduciary	Complete Architect tier + trust fundamentals assessment ≥ 90%	Ministry council approval

---

6. Competency Heatmap Targets by Tier

Competency Domains

Competency Domain	Seeker (0)	Operator (1)	Builder (2)	Architect (3)	Fiduciary (4)
Constitutional Literacy	10%	40%	60%	85%	95%
Statutory Interpretation	5%	25%	55%	80%	95%
Jurisdiction Analysis	5%	35%	65%	85%	95%
Document Drafting	0%	10%	55%	80%	90%
Tort & Liability	0%	5%	35%	75%	90%
Trust & Estate Admin	0%	0%	10%	40%	95%
Teaching & Leadership	0%	5%	20%	70%	90%
Ministry Operations	0%	0%	5%	50%	85%

Assessment Methods per Tier

Tier	Assessment Type	Frequency	Pass Threshold
Seeker	Auto-graded quizzes	Per module	70%
Operator	Quizzes + written reflections	Per lesson	75%
Builder	Document submissions + peer review	Bi-weekly	80% + peer approval
Architect	Case analysis portfolio + live presentation	Monthly	85% + ministry review
Fiduciary	Trust administration practicum + oral examination	Quarterly	90% + council approval

---

7. Scriptural Anchors per Pillar

The curriculum uses a “Bible Study” framing. Each pillar of the Civic Architect journey is anchored to scriptural principles:

Pillar	Scriptural Anchor	Verse/Reference	Application in Curriculum
Identity & Sovereignty	“In the Beginning was the Word”	John 1:1; Genesis 1:26–28	You are made in the image of the Creator — not a subject of man-made entities. The “Word” establishes your divine authority before any statute existed.
Knowledge of Self	“My people are destroyed for lack of knowledge”	Hosea 4:6	Lack of knowledge of self (private capacity) is the root cause of false personation and jurisdictional submission.
Jurisdiction & Authority	“Render unto Caesar what is Caesar’s“	Matthew 22:21	Distinguishing what belongs to the public (government) vs. private (you). Government agents can only claim jurisdiction over what is theirs.
Discernment	“Be wise as serpents, harmless as doves”	Matthew 10:16	Navigating government interactions requires understanding their systems without becoming part of them.
Foundation Building	“The wise man built his house upon the rock”	Matthew 7:24–27	The entire construction metaphor (clearing trees → pouring concrete → polishing) maps to building on the constitutional rock rather than the sand of assumptions.
Truth & Deception	“You shall know the truth and the truth shall set you free”	John 8:32	Recognizing deceptive practices in incomplete documents, false jurisdiction

Pillar	Scriptural Anchor	Verse/Reference	Application in Curriculum
			claims, and statutory misapplication.
Stewardship & Trust	“Well done, good and faithful servant”	Matthew 25:23	Fiduciary duty as divine stewardship — managing estates and trusts as a sacred responsibility.
Community & Teaching	“Iron sharpens iron”	Proverbs 27:17	The PMA model — private people coming together to sharpen understanding and protect one another.
Perseverance	“Let us not be weary in well doing”	Galatians 6:9	Addressing mental exhaustion in the learning process (directly referenced in Lesson 11 — Mixing Up the Mud).
Justice & Advocacy	“Learn to do well; seek judgment, relieve the oppressed”	Isaiah 1:17	Filing tort claims, challenging unlawful jurisdiction, and advocating for those held in unlawful captivity.

8. Constitutional & Legal Anchors per Module

Module-to-Legal-Foundation Mapping

Module #	Module Title (Construction Metaphor)	Primary Legal Anchor	Constitutional Reference	Statutory Reference	Key Legal Principle
0	Statute Interpretation Principles	Four canons of statutory construction	—	—	Ejusdem generis, Noscitur a sociis, Expressio unius est exclusio alterius, In pari materia
1	In the Beginning was the Word	Declaration of Independence — governments derive just powers from consent	Declaration of Independence ¶2	—	Consent of the governed; governments exist to protect private rights
2	Caught Up in the Words	Who can government agents speak to?	Article I, §8	State equivalents	Agents need authority/delegation to initiate interaction
3	The Right Spot to Build	Jurisdiction — where to build your legal standing	Article I, §8, Clauses 1, 3, 10, 14, 17	State constitution parallels	Federal jurisdiction is limited and enumerated
4	Evaluating the Choices	You are NOT a slave — identifying your status	13th Amendment	State civil rights codes	Private capacity vs. public capacity; no involuntary servitude
5	Clearing the Trees	“As Above, So Below” — federal → state → county chain	Article VI (Supremacy Clause)	State statutes mirroring federal limits	State agents have FEWER powers than federal, not more
6	Clearing the Weeds	False jurisdiction claims &	4th Amendment (un-	State criminal procedure codes	Agents initiating contact without cor-

Module #	Module Title (Construction Metaphor)	Primary Legal Anchor	Constitutional Reference	Statutory Reference	Key Legal Principle
		how they arise	reasonable seizures)		pus delicti or emergency
7	Leveling the Area	False Personation — 18 USC §912	Article II, §1 (oath of office)	18 USC §912; state equivalents	Impersonating officers of the United States; judges acting without oath
8	Tamping the Ground	Statutory employees vs. private individuals	16th Amendment (income tax context)	IRC §3401(c); state tax codes	“Employee” means officer/employee of government — not private people
9	Spreading the Sand	Corpus Delicti — when agents CAN speak to you	5th Amendment (due process)	State criminal procedure	Only two lawful triggers: injured party complaint OR genuine emergency
10	Spreading the Gravel	Business/ Self-Employed classifications — IRS traps	16th Amendment	IRC §7701; §3401(c)–(d)	EIN = operating a small business in their system; statutory vs. common law employee
11	Mixing Up the Mud	Applied experiment — real case application	6th Amendment (right to counsel/ confrontation)	State criminal codes (entity & personal liability)	Testing knowledge against active cases; overcoming mental exhaustion
12	Tamping the Mud	Juvenile/family court juris-	14th Amendment (due process/	State family codes	Minor children and parental rights

Module #	Module Title (Construction Metaphor)	Primary Legal Anchor	Constitutional Reference	Statutory Reference	Key Legal Principle
		diction analysis	equal protection)		vs. state jurisdiction
13	Pour the Concrete	Consumer transactions & TILA	Article I, §10 (contract clause)	15 USC §1601 et seq. (TILA)	Deceptive business practices in lending; incomplete documents as fraud
14	Applying Top Coat Protection	Full “As Above, So Below” synthesis	Declaration → Constitution → USC → State codes	Title 15 (liability of the US)	Complete chain: government liability when agents violate their limits
15	Polishing the Finish	Tort claims & sovereign immunity myths	11th Amendment (state immunity)	FTCA 28 USC §2671–2680	Filing tort claims; “we’re immune” is a lie — here’s why and how to file
16	Homework Bonus	Statutes apply to agents, not private people	10th Amendment (reserved powers)	RCW 9A (WA Criminal Code — Principles of Liability)	“Agent” defined in statutes = director, officer, employee, or authorized person of an entity

9. Ministry Functions A–D Mapped to Sites

Function A: Operations

Sub-Function	Primary Site	Secondary Site	Tools	KPIs
Member onboarding	btpma.org	educationministry.org	WordPress + WooCommerce + HighLevel	Conversion rate, time-to-activate
Communication & announcements	btpma.org	All sites (webhook push)	HighLevel, Slack, email	Open rate, engagement rate
Event management	platform.btpma.org	btpma.org (calendar embed)	WordPress Events Calendar	Attendance rate, satisfaction score
Vendor/partner management	AEMP Dashboard	—	Custom Kanban (WP plugin)	Partner count, SLA compliance
Quality assurance	AEMP Dashboard	All sites	Uptime monitoring, form testing	Uptime %, error rate, support tickets

Function B: Technology

Sub-Function	Primary Site	Secondary Site	Tools	KPIs
VPS infrastructure	AEMP Dashboard	—	Hostinger, SSH, Nginx	Uptime, response time, CPU/RAM usage
WordPress management	All sites	AEMP Dashboard (monitoring)	ManageWP, WP-CLI, Cursor	Plugin update compliance, security score
CI/CD pipeline	GitHub → All sites	AEMP Dashboard (monitoring)	GitHub Actions, Cursor, CodeSpring	Deploy frequency, rollback rate
AI integration	platform.btpma.org	educationministry.org	Abacus AI, Famous AI, ChatGPT	AI response accuracy, user satisfaction
Security & backups	AEMP Dashboard	All sites	UpdraftPlus, Wordfence, Cloudflare	Backup success rate, blocked threats

Function C: Learning & Development (L&D)

Sub-Function	Primary Site	Secondary Site	Tools	KPIs
Curriculum design	platform.btpma.org	—	TurboScribe (transcript → content), ChatGPT	Lessons published per month
Interactive module creation	educationministry.org	platform.btpma.org	LearnDash/Tutor LMS, H5P	Module completion rate, quiz scores
Assessment & certification	platform.btpma.org	AEMP Dashboard (tracking)	LMS quiz engine, custom cert generator	Pass rate, cert issuance count
Live workshop facilitation	platform.btpma.org	Zoom/streaming embed	Zoom, StreamYard	Attendance, engagement, satisfaction
Content vault management	AEMP Dashboard (metadata)	platform.btpma.org (delivery)	GitHub (version control), AI tools	Vault items indexed, content freshness

Function D: Trust Services

Sub-Function	Primary Site	Secondary Site	Tools	KPIs
Estate planning tools	estate-trust-directive	—	Custom builders, PDF generation	Directives completed, document accuracy
Trust administration	estate-trust-directive	AEMP Dashboard (audit)	Custom workflow engine	Trusts active, quarterly reviews completed
Legal advocacy resources	platform.btpma.org	estate-trust-directive	Document templates, AI-assisted drafting	Claims filed, success rate
Healthcare directives	estate-trust-directive	—	Form builder, e-signature	Directives executed, completion rate
Fiduciary training	platform.btpma.org/courses/architect	estate-trust-directive	LMS + practicum tracking	Fiduciaries certified, client satisfaction

---

10. SITE 1: AEMP Dashboard (platform.btpma.org/aemp-dashboard)

10.1 Vision and Mission

Vision: A single pane of glass through which ministry leadership sees, manages, and steers every aspect of the Civic Architect ecosystem — from a student completing their first quiz to a trust directive being filed — in real time.

Mission: Equip ministry administrators with operational intelligence, project management, financial oversight, and cross-site control without requiring technical expertise, enabling data-driven decisions that maximize impact per dollar spent.

10.2 Role in the Offer Engine

The AEMP Dashboard does **not** directly serve any offer. It is the **internal command center** that:

- Tracks offer performance (conversion rates, revenue, churn) for Offers 0–4
- Manages user lifecycle across all offers
- Monitors content publishing pipelines for all sites
- Provides financial audit trails for all revenue streams
- Enables ministry function coordination (A–D)

10.5 User Journey Flow

```
ENTRY POINTS:
  • Direct URL (bookmarked by admin)
  • SSO redirect from btpma.org (admin role detected)
  • Mobile responsive access

NAVIGATION FLOW:
  Login (btpma.org SSO)
    → Role check (ministry_admin required)
    → Main Dashboard
    ├→ Click metric card → Drill-down analytics
    ├→ Click site health → Infrastructure details
    ├→ Click ministry function → Kanban/Sprint view
    │    ├→ Create task → Assign → Track → Complete
    │    ├→ Plan sprint → Estimate costs → Execute → Audit
    │    └→ View KPIs → Identify gaps → Create improvement tasks
    ├→ Users → Search/filter → View profile → Take action
    ├→ Content → Pipeline → Create/review/publish
    ├→ Finance → Revenue/Expenses → Generate reports
    └→ Reports → Auto-generate → Export → Share

EXIT POINTS:
  • Logout → btpma.org
  • Direct links to other sites (opens in new tab)
  • Export downloads (CSV, PDF)
```

10.6 Database Schema

    INDEX idx_event_type (event_type)
);
```

10.7 Technical Hosting Notes

Aspect	Decision	Rationale
Platform	WordPress (sub-directory of platform.btpma.org)	Shares the same WP installation as the LMS; admin pages are custom dashboard templates
Implementation	Custom WordPress admin plugin OR WP App (React-based dashboard)	Plugin approach = simpler for vibe-coder; React app = better UX but needs build tooling
Recommended approach	WordPress plugin with custom admin pages + Chart.js/ApexCharts for visualizations	Stays within WP ecosystem; no separate build pipeline needed
Authentication	WordPress admin role check (custom `ministry_admin` capability)	Uses existing WP auth; no additional auth layer needed
Data access	Direct database queries via WP `$wpdb` + REST API endpoints for AJAX updates	Familiar WP patterns; no new tech to learn
Caching	Redis object cache + transient API for expensive queries	Dashboard data cached for 5-min intervals; real-time feed via AJAX polling
Access restriction	URL-level check: only users with `ministry_admin` capability can access `/aemp-dashboard/*`	WP capability system; managed in Users → Roles

10.8 Integration Points with Other Sites

Integration	Direction	Method	Frequency
educationministry.org → AEMP	Inbound	REST API webhook (new lead, module completion)	Real-time
btpma.org → AEMP	Inbound	REST API webhook (new member, payment, tier change)	Real-time
platform.btpma.org → AEMP	Internal	Direct DB query (same WP installation)	On-demand + 5-min cache
estate-trust-directive → AEMP	Internal	Direct DB query (same WP installation)	On-demand + 5-min cache
AEMP → All sites	Outbound	WP REST API calls for content management actions	On admin action
AEMP → Stripe	Outbound	Stripe API for financial data	Hourly sync + webhooks
AEMP → HighLevel	Bidirectional	HighLevel API for CRM sync	Real-time webhooks
AEMP → GitHub	Outbound	GitHub API for deployment status	On push events

---

11. SITE 2: educationministry.org

11.1 Vision and Mission

Vision: The open door to civic awakening — a free, accessible, world-class educational experience that meets every learner where they are and plants the seed of constitutional literacy that grows into sovereign capacity.

Mission: Deliver interactive, archetype-aware learning modules that introduce private individuals to the foundational question — “Who gave government agents authority to speak to you?” — without overwhelming them, while creating a natural desire to go deeper through the paid Civic Architect pathway.

11.2 Role in the Offer Engine

educationministry.org is the **top of funnel** for the entire ecosystem:

- **Delivers Offer 0** (The Awakening — free)
- **Captures leads** via email opt-in for module access
- **Demonstrates platform capabilities** (preview of AEMP platform features)
- **Creates upgrade desire** through strategic content gaps and CTAs
- **Feeds qualified leads** to btpma.org for membership conversion

Critical rule: The 16 vault PDFs are NEVER published here. Instead, the curriculum is **reinterpreted** as interactive learning modules designed for the 4 learning archetypes.

```

11.5 User Journey Flow

```
ENTRY POINTS:
  • Organic search ("who has jurisdiction over me", "government authority limits")
  • Social media (ministry posts, member shares)
  • Referral from btpma.org
  • Direct traffic (word of mouth)
  • Paid ads (Facebook, Google — targeting civic education keywords)

JOURNEY:
  Landing Page (/)
    → Explore "What You'll Discover" sections
    → Select learning archetype (or skip — defaults to Structured)
    → CTA: "Begin Your Awakening"
      → /account/register (email + name — minimal friction)
        → Email confirmation (with Module 1 direct link)
          → /courses/awakening/module-1-the-question
            → Complete module content (archetype-specific)
            → Pass knowledge check (≥70%)
            → Auto-advance to Module 2
              → Module 2 → Module 3 → Module 4
                → Module 4 completion triggers:
                  1. Celebration screen ("You've awakened!")
                  2. Competency snapshot reveal
                  3. Upgrade CTA: "You've outgrown this level"
                  4. Direct link to btpma.org/join?utm_source=edmin&utm_offer=1

UPGRADE/DOWNGRADE PATHS:
  • After Module 4 → Upgrade prompt to Offer 1 (btpma.org/join)
  • At any point → /upgrade/compare shows all tiers
  • Returning free users → Progress dashboard shows "where you could be"
  • Paid members visiting edmin → Auto-detected, shown "continue on plat-
form.btpma.org"

EXIT POINTS:
  • Completion of Offer 0 → btpma.org (upgrade)
  • Mid-course exit → Email drip sequence (3-5 emails to re-engage)
  • Resources/blog → Organic browsing (soft lead nurture)
  • Community/forums → Engagement (increases upgrade probability)

LEAD CAPTURE MECHANISMS:
  1. Module access gate (email required to start Module 1)
  2. Newsletter signup (blog/resources footer)
  3. Event registration (webinar RSVPs)
  4. Glossary download (PDF lead magnet)
  5. Constitution Explorer tool (requires login for bookmarking)
```

11.6 Database Schema

```sql

    FOREIGN KEY (learner_id) REFERENCES edmin_learners(id)
);
```

11.7 Technical Hosting Notes

Aspect	Decision	Rationale
Platform	WordPress (separate installation from platform.btpma.org)	Different domain = different WP install; shares VPS
Theme	Astra Pro or GeneratePress + Elementor Pro	Lightweight, fast, excellent free-tier compatibility
LMS Plugin	Tutor LMS (free tier) or LearnDash (if budget allows)	Module-based course delivery with progress tracking
Interactive Elements	H5P plugin (free, open-source)	Interactive videos, drag-and-drop, quizzes — supports all 4 archetypes
Forum	bbPress (free) or BuddyBoss (if budget allows)	Community discussion for Social archetype learners
Forms	WPForms Lite or Fluent Forms	Lead capture, registration, feedback
Email	HighLevel or FluentCRM (WP plugin)	Drip sequences, re-engagement campaigns
Caching	LiteSpeed Cache (Hostinger native) + Redis	Fast page loads for public-facing site
CDN	Cloudflare (free tier)	Global edge caching, DDoS protection, SSL
SEO	RankMath (free)	Organic traffic acquisition for top-of-funnel
Analytics	Google Analytics 4 + custom event tracking	Funnel analysis, archetype preference data

11.8 Integration Points

Integration	Direction	Method	Purpose
edmin → btpma.org	Outbound	SSO redirect (JWT)	User authentication, account linking
edmin → AEMP	Outbound	REST webhook	Lead events, module completions, upgrade clicks
edmin → HighLevel	Outbound	HighLevel API / webhook	CRM sync, email sequence triggers
btpma.org → edmin	Inbound	SSO token validation	Returning member recognition
platform → edmin	Inbound	API call	Check if user has free progress (to credit toward Offer 1)
edmin → Stripe	None	No direct payment	All payments route through btpma.org

---

12. SITE 3: btpma.org

12.1 Vision and Mission

Vision: The sacred digital threshold of the Private Membership Association — where seekers become members, members find their tier, and the entire Civic Architect ecosystem authenticates as one body.

Mission: Serve as the central hub for PMA membership management, single sign-on authentication across all platforms, subscription management for Offers 0–4, and the unified member directory that binds the community together.

12.2 Role in the Offer Engine

btpma.org is the **conversion engine and access router**:

- **Membership gateway** — all paid conversions happen here
- **SSO authority** — every authenticated session across all 5 sites originates from btpma.org
- **Subscription manager** — handles billing, upgrades, downgrades, cancellations
- **Access router** — after login, routes members to the appropriate site/offer
- **PMA legal boundary** — membership agreement, PMA notice, and private jurisdiction

```

12.5 User Journey Flow

```
ENTRY POINTS:
  • Upgrade redirect from educationministry.org (with UTM params)
  • Direct navigation (returning members)
  • Referral link from existing member
  • Social media / marketing campaigns
  • Search engines ("private membership association", "BTPMA")

NEW MEMBER JOURNEY:
  Landing Page (/)
    → Explore "What Is a PMA?" section
    → "Choose Your Path" → Select tier
      → /join/[tier]
        → Registration form (name, email, password, PMA agreement checkbox)
        → Payment processing (Stripe embedded checkout)
        → Welcome email (login credentials, quick start guide)
        → Auto-redirect to /members/ (portal home)
          → Quick access cards route to appropriate site:
            - Seeker → educationministry.org
            - Operator/Builder/Architect → platform.btpma.org
            - Fiduciary → platform.btpma.org/estate-trust-directive
          → Member explores portal features (directory, events, profile)

RETURNING MEMBER JOURNEY:
  /login/
    → SSO authentication
    → JWT token issued (stored in HttpOnly cookie)
    → Redirect to last-visited site OR /members/ portal
      → Continue learning / access resources / manage subscription

UPGRADE JOURNEY:
  /members/ (logged in, current tier = Operator)
    → See upgrade prompt ("Ready for Builder?")
    → /members/subscription → "Change Plan" button
    → /join/framework (pre-filled, upgrade flow)
    → Stripe proration handling
    → Immediate access to new tier content
    → Redirect to platform.btpma.org (new content unlocked)

SSO FLOW (cross-site):
  User visits platform.btpma.org (not logged in)
    → Redirect to btpma.org/login?redirect=platform.btpma.org
    → User logs in
    → JWT token issued
    → Redirect back to platform.btpma.org with token
    → platform.btpma.org validates token via btpma.org/api/v1/auth/validate
    → Session established on platform.btpma.org

EXIT POINTS:
  • Logout → btpma.org/ (logged out homepage)
  • Cancel subscription → Exit survey → /support/
  • Navigate to external links (opens new tab)
```

12.6 Database Schema

```sql
-- btpma.org is the MASTER user database / SSO authority
-- This is the most critical database in the ecosystem

-- Extended user profile (beyond wp_users)
CREATE TABLE btpma_members (
    id INT PRIMARY KEY AUTO_INCREMENT,
    wp_user_id INT NOT NULL UNIQUE,
    member_number VARCHAR(20) UNIQUE,       -- e.g., "BTPMA-2026-00142"

12.7 Technical Hosting Notes

Aspect	Decision	Rationale
Platform	WordPress (dedicated installation)	Separate from platform.btpma.org because different domain
Theme	Astra Pro + Elementor Pro (consistent with education-ministry.org)	Brand consistency, familiar editing experience
Membership Plugin	Paid Memberships Pro (PMPro) or MemberPress	Handles tier management, gating, Stripe integration
SSO Implementation	Custom JWT-based SSO via WP REST API plugin	Lightweight; avoids OAuth complexity for internal sites
Payment	Stripe (via membership plugin integration)	Industry standard, PCI compliant, subscription support
Directory	PMPro directory add-on or custom shortcode	Searchable member profiles
CRM Sync	HighLevel integration via webhook	Marketing automation, drip campaigns
Email	Transactional: Postmark/SendGrid; Marketing: HighLevel	Reliable delivery for auth emails; marketing via CRM
Security	Wordfence + Cloudflare + 2FA (via WP 2FA plugin)	SSO authority needs highest security
Backup	UpdraftPlus → remote storage (S3 or Google Drive)	Daily automated backups; this DB is critical

12.8 Integration Points

Integration	Direction	Method	Purpose
btpma.org → platform.btpma.org	Outbound	JWT SSO + REST API	Authentication, tier verification
btpma.org → educationministry.org	Outbound	JWT SSO + REST API	Account linking, returning member detection
btpma.org → estate-trust-directive	Outbound	JWT SSO + REST API (internal)	Offer 4 access verification
btpma.org → AEMP Dashboard	Outbound	REST webhooks	Member events, payment events
btpma.org → Stripe	Bidirectional	Stripe API + webhooks	Payment processing, subscription management
btpma.org → HighLevel	Bidirectional	API + webhooks	CRM sync, marketing automation
educationministry.org → btpma.org	Inbound	Upgrade redirects with UTM	New member conversion
platform.btpma.org → btpma.org	Inbound	Token validation requests	SSO token verification

---

13. SITE 4: platform.btpma.org

13.1 Vision and Mission

Vision: The definitive learning environment where civic architects are forged — a progressive, immersive platform that transforms constitutional awareness into practical competency through the complete Foundation → Framework → Architect curriculum.

Mission: Deliver the full Civic Architect curriculum (Offers 1–3) through structured courses, interactive workshops, document template builders, live sessions, and peer collaboration — all powered by the 16 vault lessons reinterpreted for progressive mastery.

13.2 Role in the Offer Engine

platform.btpma.org is the **core LMS delivery engine**:

- **Delivers Offers 1, 2, and 3** (Foundation, Framework, Architect)
- **Houses the learning content** derived from the 16 vault PDFs
- **Provides document template builders** for practical application

- **Hosts live sessions** and workshop recordings
- **Tracks competency progression** across all three tiers
- **Contains the AEMP Dashboard** and **Estate Trust Directive** as sub-routes

13.5 User Journey Flow

```
ENTRY POINTS:
  • SSO redirect from btpma.org (after login)
  • Direct URL (returning user with valid session)
  • Upgrade completion redirect from btpma.org/join/[tier]
  • Email link (course notification, workshop reminder)

PRIMARY LEARNING JOURNEY (Offer 1 — Foundation):
  LMS Home (/)
    → "Continue where you left off" → Current lesson
    → OR → /courses/foundation/overview (syllabus review)
      → Begin Lesson 0 (Statute Interpretation Principles)
        → Video → Reading → Workbook → Quiz
        → Auto-advance to Lesson 1
          → ... Progressive through all 16 lessons ...
            → Lesson 16 (Homework Bonus) → Knowledge assessment
              → Certificate generation
              → Upgrade prompt: "You've built the Foundation. Build the Framework?"
              → Redirect to btpma.org/join/framework (upgrade)

TEMPLATE USAGE JOURNEY:
  /templates/ (browse available templates)
    → Select template → Step-by-step builder
    → AI helper provides contextual guidance
    → Preview generated document
    → Download PDF / Save to /my-learning/documents
    → Optional: Share with mentor (Architect tier) for review

WORKSHOP JOURNEY:
  /workshops/upcoming → Browse schedule
    → Register for session
    → Receive calendar invite + reminder emails
    → Attend live (Zoom embed or StreamYard)
    → Recording available within 24 hours at /workshops/recordings

COMMUNITY JOURNEY:
  /community/forums → Browse tier-gated forums
    → Post question or insight
    → Receive replies (email notification)
    → Optional: Join study group → Regular group meetings

EXIT POINTS:
  • Lesson completion → Continue or Save & Exit
  • Template download → Return to learning or exit
  • Session timeout → Re-auth via btpma.org SSO
  • Upgrade → btpma.org/join/[next-tier]
```

13.7 Technical Hosting Notes

Aspect	Decision	Rationale
Platform	WordPress (sub-directory multisite with btpma.org OR separate install)	Recommended: Separate install — cleaner separation of concerns
Theme	BuddyBoss Theme or Astra Pro	BuddyBoss if community features are priority; Astra for lighter weight
LMS Plugin	LearnDash (recommended) or Tutor LMS	LearnDash: mature, extensive addon ecosystem, drip content support
Course Content	LearnDash lessons + custom post types for legal anchors	Each lesson maps to one vault PDF; content is rewritten, not copy-pasted
Template Builder	Custom WP plugin (Cursor-built) using React form + PDF generation	Key differentiator; built incrementally via CodeSpring/Cursor
Video Hosting	Bunny.net Stream or Vimeo Pro (NOT self-hosted)	VPS can’t handle video serving at scale; external CDN required
PDF Generation	Server-side: Puppeteer/Chromium headless on VPS	Generate PDFs from HTML templates for document downloads
Forum	bbPress or BuddyBoss social	Tier-gated forums; integrates with LMS plugin
AI Helper	Custom integration: Abacus AI API for contextual hints	Template builder AI assistance; lesson Q&A chatbot
Search	SearchWP or Relevanssi	Full-text search across lessons, templates, forum posts

13.8 Integration Points

Integration	Direction	Method	Purpose
platform → btpma.org	Outbound	SSO token validation API call	Every page load verifies auth + tier
platform → AEMP (internal)	Internal	Shared DB / direct query	Dashboard reads platform data directly
platform → estate-trust-directive (internal)	Internal	Shared WP installation routes	Sub-route of same site
platform → Abacus AI	Outbound	API call	Template AI helpers, lesson Q&A
platform → Bunny.net/Vimeo	Outbound	Embed/API	Video lesson delivery
platform → Zoom	Outbound	Zoom API	Workshop scheduling, registration
btpma.org → platform	Inbound	SSO redirect, tier data	Authentication, access control
educationministry.org → platform	Inbound	API call	Check free progress to credit toward Offer 1
AEMP → platform	Internal	Direct DB	Content management, user management

---

14. SITE 5: platform.btpma.org/estate-trust-directive

14.1 Vision and Mission

Vision: The most comprehensive digital estate and trust administration suite available to sovereign individuals — a complete lifecycle management platform that turns constitutional knowledge into generational wealth protection and fiduciary mastery.

Mission: Provide Fiduciary-tier members with end-to-end tools for establishing, managing, and administering personal estates and trusts — from H.E.M.S. calculations to healthcare directives to family office operations — all grounded in the constitutional and legal frameworks taught in the preceding tiers.

14.2 Role in the Offer Engine

The Estate Trust Directive is the **premium capstone** of the offer engine:

- **Delivers Offer 4** (The Estate Trust Directive — $997/month)
- **Highest-value, lowest-volume** offering
- **Full lifecycle management** — not just education but active administration tools
- **Requires prerequisite completion** — Architect tier competency assessment
- **Includes dedicated fiduciary advisor** — human + AI hybrid support
- **Generates recurring revenue** through ongoing trust administration services

14.5 User Journey Flow

```
ENTRY POINTS:
  • Upgrade from Architect tier → btpma.org/join/estate → redirect here
  • SSO login → tier check (fiduciary required) → /estate-trust-directive/
  • Direct URL (returning fiduciary member)
  • Advisor invitation link (onboarding email)

ONBOARDING JOURNEY (first-time):
  /estate-trust-directive/
    → /onboarding/welcome (orientation video, what to expect)
    → /onboarding/assessment (estate readiness questionnaire)
    → /onboarding/advisor-match (matched with fiduciary advisor)
    → /onboarding/plan (AI-generated personalized estate plan outline)
    → Redirect to /estate-trust-directive/ (main dashboard)

LIFECYCLE JOURNEY (recommended order):
  1. H.E.M.S. Suite
     → Learn framework → Plan each pillar → Set budgets
  2. Treasury
     → Register accounts → Set up tracking → Initial reports
  3. Fiduciary Training
     → Complete duty modules → Pass certification assessment
  4. Healthcare Directive
     → Build directive → Healthcare POA → Living will → Store in vault
  5. Beneficiary Designations
     → Set designations → Contingent planning → Notification prep
  6. Will & Family Office
     → Build will → Family office setup (if applicable) → Succession plan
  7. Tax Awareness
     → Review tax landscape → Calendar setup → Professional referrals
  8. Legal Advocacy (ongoing)
     → As needed: claim drafting, case tracking, research
  9. Custom Solutions (as needed)
     → Request consultation → Custom project execution

QUARTERLY REVIEW CYCLE:
  Advisor notification → /my-estate/dashboard review
    → H.E.M.S. budget review → Treasury report review
    → Beneficiary review → Document freshness check
    → Action items generated → Next quarter plan

EXIT POINTS:
  • Navigate to platform.btpma.org (LMS courses)
  • Download documents from vault
  • Schedule advisor consultation
  • Custom solution request
```

14.7 Technical Hosting Notes

Aspect	Decision	Rationale
Platform	WordPress sub-directory route within platform.btpma.org	Same WP installation; accessed via custom page templates or plugin
Implementation	Custom WordPress plugin (“Estate Trust Directive”) with React front-end	Complex interactive forms require React; plugin keeps it modular
Security	Encrypted document vault (server-side AES-256) + role-based access	Estate documents are highly sensitive; encryption at rest required
PDF Generation	Puppeteer/Chromium headless (same as LMS templates)	Consistent document generation across platform
File Storage	Local encrypted directory on VPS + optional S3 backup	Self-hosted for privacy; S3 backup for disaster recovery
Advisor Scheduling	Calendly embed or custom booking (via HighLevel)	Simple scheduling without building from scratch
Financial Calculations	Custom JS/PHP calculation engine	H.E.M.S. budgets, projections, distribution calculations
Access Control	WordPress capability: `fiduciary_access` required	Only Offer 4 subscribers get this capability
Audit Trail	Comprehensive logging of all document/financial actions	Fiduciary duty requires full audit trail

14.8 Integration Points

Integration	Direction	Method	Purpose
estate-trust → btpma.org	Outbound	SSO token validation	Auth + Offer 4 subscription verification
estate-trust → AEMP	Internal	Direct DB queries	Estate metrics in ministry dashboard
estate-trust → platform LMS	Internal	Shared WP installation	Access Architect course materials, templates
estate-trust → Abacus AI	Outbound	API	Personalized estate plan generation, document analysis
estate-trust → High-Level	Outbound	API	Advisor consultation scheduling, notifications
estate-trust → Stripe	Via btpma.org	Subscription verification	Payment status check for access control
AEMP → estate-trust	Internal	Direct DB	Directive status, completion metrics, revenue tracking

---

15. Estate Trust Directive Full Lifecycle Stack

Complete Lifecycle Matrix

Phase	Component	Description	Entry Trigger	Completion Criteria	Documents Produced	Integration Points
Phase 0	**Onboarding**	Welcome, assessment, advisor match, plan creation	Offer 4 purchase confirmed	Advisor assigned, plan approved	Estate Plan Outline, Assessment Report	btpma.org (sub verify), High-Level (advisor CRM)
Phase 1	**H.E.M.S.**	Health, Education, Maintenance, Support planning	Onboarding complete	All 4 pillars budgeted, reviewed by advisor	H.E.M.S. Budget Plan, Distribution Standards	Treasury (budget feeds), AEMP (metrics)
Phase 2	**Treasury**	Account registration, transaction tracking, reporting	H.E.M.S. plan approved	All accounts registered, initial reports generated	Account Registry, Financial Statements, Cash Flow Report	H.E.M.S. (categorization), Tax Awareness (reporting)
Phase 3	**Fiduciary Training**	Duty modules, compliance checklists, certification	Treasury setup complete	Certification assessment passed (≥90%)	Fiduciary Certificate, Duty Compliance Checklist	Platform LMS (course delivery), AEMP (cert tracking)
Phase 4	**Healthcare Directive**	Directive, POA, living will creation	Fiduciary training complete	All docs executed, stored in vault	Healthcare Directive, Healthcare POA, Living Will	Vault (storage), Beneficiary (POA references)
Phase 5	**Beneficiary Designations**	Primary, contingent, residual designations	Healthcare directive complete	All designations set, notifications prepared	Beneficiary Designation Forms, Notification Letters	Treasury (account linkage), Will (consistency check)
Phase 6						

Phase	Component	Description	Entry Trigger	Completion Criteria	Documents Produced	Integration Points
	Will & Family Office	Will creation, family office setup, succession plan	Beneficiary designations complete	Will executed, succession plan documented	Last Will & Testament, Family Governance Docs, Succession Plan	Beneficiary (consistency), Treasury (asset listing)
Phase 7	**Tax Awareness**	Tax landscape review, calendar, professional referral	Will & family office complete	Tax calendar set, professional retained (if needed)	Tax Calendar, Professional Engagement Letter	Treasury (reporting), Calendar (deadlines)
Phase 8	**Legal Advocacy**	Ongoing: claims, motions, case management	As needed (any phase)	Case resolved or claim settled	Legal Claims, Motions, Court Filings	Platform templates, AEMP (case metrics)
Phase 9	**Custom Solutions**	Specialized needs beyond standard lifecycle	Member request	Custom deliverable completed	Custom Documents (varies)	All systems (varies)
Ongoing	**Quarterly Review**	Comprehensive estate review cycle	Every 90 days	Review complete, action items assigned	Quarterly Review Report, Action Item List	All lifecycle components, AEMP (review metrics)

Lifecycle Dependency Chain

```
Onboarding
    └→ H.E.M.S.
        └→ Treasury
            └→ Fiduciary Training
                └→ Healthcare Directive
                    └→ Beneficiary Designations
                        └→ Will & Family Office
                            └→ Tax Awareness
                                └→ [Lifecycle Complete ─ Quarterly Reviews Begin]

Legal Advocacy ←→ [Any Phase] (parallel track, activated as needed)
Custom Solutions ←→ [Any Phase] (on-demand, no dependency)
```

Analytics chart configurations	Chart.js configs	To Build	8h	P2
Total			**~104h**	

Grand Total Content Build-Out

Site	Estimated Hours	Estimated Weeks (40h/wk)
educationministry.org	103h	2.6 weeks
platform.btpma.org (LMS)	649h	16.2 weeks
btpma.org	61h	1.5 weeks
estate-trust-directive	274h	6.9 weeks
AEMP Dashboard	104h	2.6 weeks
TOTAL	**1,191h**	**~30 weeks**

Note: With AI-assisted content generation (Abacus AI, ChatGPT, TurboScribe), expect 40-60% reduction in actual human hours. Estimated with AI: ~500-700 hours (~13-18 weeks).

---

17. Recommended Tech Stack per Functional Area

Core Infrastructure

Function	Tool	Tier	Cost/mo	Notes
VPS Hosting	Hostinger VPS (KVM 2)	Minimum 4GB RAM, 2 vCPU, 100GB SSD	~$12	Upgrade to 8GB if running all 5 sites
OS	Ubuntu 22.04 LTS	—	$0	Standard, well-supported
Web Server	OpenLiteSpeed or Nginx	—	$0	OLS recommended for Hostinger (native LiteSpeed cache)
Database	MySQL 8.0 (MariaDB 10.6)	—	$0	Shared across all WP installations
Cache	Redis + LiteSpeed Cache	—	$0	Object caching + page caching
CDN	Cloudflare (Free → Pro)	Free plan sufficient initially	$0–$20	DNS, SSL, DDoS protection, edge caching
SSL	Let’s Encrypt via Cloudflare	—	$0	Auto-renewing SSL for all domains
DNS	Cloudflare DNS	—	$0	Fast resolution, easy management

WordPress Stack

Function	Plugin/Tool	Free/Paid	Notes
Page Builder	Elementor Pro	Paid ($59/yr)	Visual editing for non-developers
LMS	LearnDash	Paid ($199/yr)	Best WP LMS — courses, quizzes, certificates
Membership	Paid Memberships Pro	Free + Paid addons	Tier management, Stripe integration
SSO	JWT Authentication for WP REST API + custom plugin	Free	Cross-site authentication
Forms	Fluent Forms Pro	Paid ($59/yr)	Lead capture, registrations, applications
Email (transactional)	FluentSMTP + Postmark	Free plugin + $10/mo	Reliable auth emails
Email (marketing)	HighLevel or FluentCRM	$97/mo or $129/yr	Drip campaigns, automation
Interactive Content	H5P	Free	Quizzes, interactive videos, drag-and-drop
Forums	bbPress	Free	Discussion forums, tier-gated
SEO	RankMath	Free	Search optimization
Security	Wordfence + WP 2FA	Free	Firewall, login protection, 2FA
Backup	UpdraftPlus	Free (Pro for $70/yr)	Automated daily backups
Performance	LiteSpeed Cache + Redis	Free	Must-have for VPS performance
PDF Generation	Custom (Puppeteer)	Free	Server-side PDF from HTML templates
Search	SearchWP	Paid ($99/yr)	Better than default WP search

Development & Deployment Stack

Function	Tool	Cost	Notes
IDE	Cursor	Free–$20/mo	AI-powered code editing — primary development tool
Version Control	GitHub	Free	Repository for all custom code
CI/CD	GitHub Actions	Free (2000 min/mo)	Auto-deploy on push to main
AI Code Assistant	CodeSpring	Per usage	Builds custom WP plugins from prompts
AI Content	Abacus AI	Per usage	Content generation, document analysis
AI Transcription	TurboScribe	Per usage	Vault PDF → polished lesson content
AI Chat	ChatGPT (Plus)	$20/mo	General content creation, copywriting
CRM	HighLevel	$97/mo	All-in-one: email, SMS, pipeline, calendar
VPS Management	SSH + WP-CLI	Free	Command-line WordPress management
Monitoring	UptimeRobot (free) + WP Health Check	Free	Uptime monitoring for all 5 sites

AI Toolchain Assignment

AI Tool	Primary Use	Secondary Use
Abacus AI	Document analysis, personalized estate plan generation	Lesson Q&A chatbot, template AI helpers
ChatGPT	Lesson content writing, blog posts, email copy	Course outlines, quiz question generation
TurboScribe	Vault PDF transcription → structured lesson content	Workshop recording transcription
CodeSpring	Custom WP plugin development (template builders, AEMP dashboard)	Bug fixes, feature additions
Famous AI	Video content creation (lesson intros, explainer animations)	Social media video content
LegalInsider AI	Legal document template validation	Statutory reference verification
Paxton AI	Legal research assistance	Case study development
Deal AI	Subscription offer optimization	Pricing strategy analysis
HighLevel AI	Marketing automation, CRM workflows	Lead scoring, email optimization
SuperCool AI	Creative design assets (thumbnails, graphics)	Social media content design

19. VPS Hosting & Infrastructure Plan

Server Specification (Hostinger VPS)

Component	Minimum (Launch)	Recommended (Growth)	Notes
Plan	KVM 2	KVM 4	Start minimal, scale up
RAM	4 GB	8 GB	WordPress needs ~512MB per site; Redis needs 1GB
CPU	2 vCPU	4 vCPU	PDF generation (Puppeteer) is CPU-intensive
Storage	100 GB NVMe SSD	200 GB NVMe SSD	Encrypted document vault will grow
Bandwidth	4 TB	8 TB	Video offloaded to CDN; mostly HTML/API traffic
OS	Ubuntu 22.04 LTS	Ubuntu 22.04 LTS	Stable, well-documented
Cost	~$12/mo	~$16/mo	Hostinger VPS is excellent value

Server Software Architecture

```
UBUNTU 22.04 LTS

OPENlitespeed / NGINX
(Web Server ─ handles all 3 domains)

Virtual Hosts:
├── educationministry.org → /var/www/edmin/
├── btpma.org → /var/www/btpma/
└── platform.btpma.org → /var/www/platform/
    ├── /aemp-dashboard/ (same WP install, routed)
    └── /estate-trust-directive/ (same WP install)

PHP 8.2-FPM        MySQL 8.0          Redis 7.0
(WP runtime)       (3 databases)      (cache)

Node.js 18         Chromium           Certbot
(if React          (headless ─        (SSL certs)
 build needed)      PDF gen)

CRON JOBS
• */5 * * * * ─ Analytics snapshot collection
• 0 */1 * * * ─ Stripe sync
• 0 2 * * * ─ Daily backup (UpdraftPlus trigger)
• 0 3 * * 0 ─ Weekly report generation
• 0 0 1 * * ─ Monthly financial report

SECURITY
• UFW Firewall (ports 80, 443, 22 only)
• Fail2Ban (SSH brute force protection)
• Cloudflare (DDoS, WAF)
• Unattended upgrades (security patches)
```

CI/CD Pipeline (GitHub Actions → VPS)

```yaml
# .github/workflows/deploy.yml (simplified)
name: Deploy to Hostinger VPS

on:
  push:
    branches: [main]

jobs:
  deploy:
    runs-on: ubuntu-latest
    steps:
      - uses: actions/checkout@v4
      - name: Deploy via SSH
        uses: appleboy/ssh-action@v1
        with:
          host: ${{ secrets.VPS_HOST }}
          username: ${{ secrets.VPS_USER }}
          key: ${{ secrets.VPS_SSH_KEY }}
          script: |
            cd /var/www/platform/wp-content/plugins/civic-architect/
            git pull origin main
            wp cache flush --path=/var/www/platform
```

Domain & DNS Configuration

Domain	DNS Provider	A Record	SSL	Cloudflare Proxy
educationministry.org	Cloudflare	VPS IP	Cloudflare Edge	Yes (orange cloud)
btpma.org	Cloudflare	VPS IP	Cloudflare Edge	Yes (orange cloud)
platform.btpma.org	Cloudflare	VPS IP (CNAME to btpma.org)	Cloudflare Edge	Yes (orange cloud)

---

20. Next Steps Execution Plan

Phase 1: Foundation Infrastructure (Weeks 1–2)

#	Task	Owner	Tools	Deliverable	Est. Hours
1.1	Provision Hostinger VPS (KVM 2, Ubuntu 22.04)	Ministry Admin	Hostinger panel	Running VPS with SSH access	2h
1.2	Configure Cloudflare DNS for all 3 domains	Ministry Admin	Cloudflare	DNS propagated, SSL active	2h
1.3	Install LEMP/LOMP stack (OpenLiteSpeed, MySQL, PHP, Redis)	Cursor/CodeSpring	SSH, VPS	Server stack running	4h
1.4	Install WordPress on all 3 domains	Cursor/CodeSpring	WP-CLI	3 WP installations accessible	3h
1.5	Configure shared MySQL databases	Cursor	SSH, MySQL	3 databases with proper users/permissions	2h
1.6	Set up GitHub repository for custom code	Ministry Admin	GitHub	Repo created, team access configured	1h
1.7	Configure GitHub Actions CI/CD	Cursor	GitHub Actions	Auto-deploy pipeline working	4h
1.8	Install core WP plugins on all sites	Cursor/WP-CLI	WP-CLI	All plugins installed and activated	3h
1.9	Configure Redis object caching	Cursor	SSH, Redis	Redis connected to all WP sites	2h
1.10	Set up automated	Ministry Admin	UpdraftPlus		2h

#	Task	Owner	Tools	Deliverable	Est. Hours
	backups (UpdraftPlus)			Daily backups to cloud storage	

Phase 2: btpma.org — SSO & Membership (Weeks 2–4)

#	Task	Owner	Tools	Deliverable	Est. Hours
2.1	Install and configure Paid Memberships Pro	Cursor	WP Admin	Membership tiers (Seeker–Fiduciary) configured	6h
2.2	Build custom SSO JWT plugin	Cursor/CodeSpring	Cursor IDE	JWT auth endpoints working	16h
2.3	Connect Stripe payment gateway	Ministry Admin	Stripe + PMPro	Payment processing live (test mode)	4h
2.4	Build homepage (Elementor)	Cursor/Ministry	Elementor Pro	Homepage published	8h
2.5	Create PMA Agreement and legal pages	Ministry Admin + AI	ChatGPT	Legal pages published	8h
2.6	Build member portal dashboard	Cursor	Elementor + custom	Member portal functional	12h
2.7	Configure HighLevel CRM integration	Ministry Admin	HighLevel	Bidirectional sync working	6h
2.8	Test SSO flow between btpma.org and platform	Cursor	Browser testing	SSO working end-to-end	4h

Phase 3: educationministry.org — Free Gateway (Weeks 3–5)

#	Task	Owner	Tools	Deliverable	Est. Hours
3.1	Install Tutor LMS or LearnDash (free tier)	Cursor	WP Admin	LMS plugin configured	3h
3.2	Install and configure H5P for interactive content	Cursor	WP Admin	H5P ready for content	2h
3.3	Build homepage with Elementor	Cursor/Ministry	Elementor	Homepage published	8h
3.4	Create Module 1 content (all 4 archetypes)	Ministry + AI	ChatGPT, TurboScribe	Module 1 live	12h
3.5	Create Module 2 content	Ministry + AI	ChatGPT, TurboScribe	Module 2 live	12h
3.6	Create Module 3 content	Ministry + AI	ChatGPT, TurboScribe	Module 3 live	12h
3.7	Create Module 4 content	Ministry + AI	ChatGPT, TurboScribe	Module 4 live	12h
3.8	Build progress dashboard page	Cursor	Elementor + custom	User progress tracking functional	8h
3.9	Configure lead capture → HighLevel flow	Ministry Admin	Fluent Forms + HighLevel	Leads flowing to CRM	4h
3.10	SSO integration with btpma.org	Cursor	Custom code	Free users can link to PMA account	6h
3.11	Configure upgrade CTAs	Cursor	WP + JS	Upgrade flow working	4h

#	Task	Owner	Tools	Deliverable	Est. Hours
	and redirect logic				

Phase 4: platform.btpma.org — LMS Core (Weeks 4–10)

#	Task	Owner	Tools	Deliverable	Est. Hours
4.1	Install and configure LearnDash	Cursor	WP Admin	LearnDash configured for 3 courses	6h
4.2	Build Foundation course structure (17 lessons)	Cursor	LearnDash	Course shell with all lesson slots	4h
4.3	Content creation: Foundation Lessons 0–4	Ministry + AI	TurboScribe, ChatGPT	First 5 lessons published	40h
4.4	Content creation: Foundation Lessons 5–10	Ministry + AI	TurboScribe, ChatGPT	Lessons 5–10 published	48h
4.5	Content creation: Foundation Lessons 11–16	Ministry + AI	TurboScribe, ChatGPT	All 17 lessons published	48h
4.6	Build Jurisdiction Challenge template builder	Cursor/CodeSpring	Cursor IDE	First template builder live	16h
4.7	Build LMS home/catalog page	Cursor	Elementor	LMS home page published	6h
4.8	Configure tier-based access control	Cursor	LearnDash + PMPro sync	Content gating working	6h
4.9	Build community forums (bbPress)	Cursor	bbPress + custom	Forums live, tier-gated	6h
4.10	Configure video hosting (Bunny.net)	Ministry Admin	Bunny.net	Video CDN ready	4h

Phase 5: AEMP Dashboard (Weeks 6–9)

#	Task	Owner	Tools	Deliverable	Est. Hours
5.1	Build AEMP Dashboard WP plugin scaffold	Cursor/CodeSpring	Cursor IDE	Plugin activated, admin menu visible	8h
5.2	Build main dashboard page (metrics + charts)	Cursor	Chart.js + custom	Dashboard showing real data	16h
5.3	Build Kanban board component	Cursor/CodeSpring	React or vanilla JS	Kanban boards for all 4 functions	20h
5.4	Build financial tracking views	Cursor	Custom PHP + JS	Revenue/expense dashboards	12h
5.5	Configure cross-site webhook reception	Cursor	WP REST API	Webhooks from all sites feeding AEMP	8h
5.6	Build KPI tracking system	Cursor	Custom DB + dashboard	KPIs configured for all 4 functions	8h
5.7	Build report generation (weekly/monthly)	Cursor	PHP + PDF gen	Auto-reports generating	8h

Phase 6: Estate Trust Directive (Weeks 8–14)

#	Task	Owner	Tools	Deliverable	Est. Hours
6.1	Build ETD plugin scaffold (sub-route of platform)	Cursor/CodeSpring	Cursor IDE	ETD accessible, role-gated	8h
6.2	Build onboarding flow (assessment + advisor match)	Cursor	Custom forms	Onboarding working	16h
6.3	Build H.E.M.S. suite (planning + budgeting tools)	Cursor	React forms + PHP	H.E.M.S. module functional	24h
6.4	Build Treasury management module	Cursor	Custom DB + UI	Treasury tracking working	20h
6.5	Build Healthcare Directive builder	Cursor/CodeSpring	Form + PDF gen	Healthcare directives can be created	24h
6.6	Build document vault (encrypted storage)	Cursor	PHP + encryption	Secure document vault operational	16h
6.7	Build Beneficiary designation manager	Cursor	Custom forms	Designations can be set and tracked	12h
6.8	Build Will builder	Cursor/CodeSpring	Form + PDF gen	Will documents can be created	24h
6.9	Build estate dashboard overview	Cursor	Custom UI	Estate overview showing lifecycle progress	8h

#	Task	Owner	Tools	Deliverable	Est. Hours
6.10	Content: Fiduciary training modules (5)	Ministry + AI	ChatGPT, Abacus	Training modules published	40h

Phase 7: Integration, Testing, Launch (Weeks 12–16)

#	Task	Owner	Tools	Deliverable	Est. Hours
7.1	End-to-end SSO testing (all sites)	Cursor + Ministry	Browser testing	SSO verified across all paths	8h
7.2	Offer engine testing (Offers 0–4 purchase flows)	Ministry Admin	Stripe test mode	All payment flows verified	8h
7.3	Performance optimization (all sites < 3s load)	Cursor	LiteSpeed Cache, Cloudflare	Page speed scores > 85	12h
7.4	Security audit (Wordfence scan, permissions check)	Cursor	Wordfence, manual review	Security issues resolved	8h
7.5	Mobile responsiveness testing	Ministry + Cursor	Browser DevTools	All pages mobile-optimized	12h
7.6	Content QA (all published modules/lessons)	Ministry Admin	Manual review	All content reviewed and approved	16h
7.7	AEMP Dashboard data verification	Ministry Admin	AEMP Dashboard	All metrics showing accurate data	8h
7.8	Soft launch (invite 50 beta members)	Ministry Admin	HighLevel email	Beta members onboarded	8h
7.9	Bug fixes from beta feedback	Cursor	GitHub Issues	Critical bugs resolved	20h
7.10	Public launch	Ministry Admin	All channels	All 5 sites publicly accessible	4h

Timeline Summary

```
WEEK:  1  2  3  4  5  6  7  8  9  10  11  12  13  14  15  16
       ├──┤
       Phase 1: Infrastructure
          ├──────────┤
          Phase 2: btpma.org (SSO + Membership)
             ├──────────┤
             Phase 3: educationministry.org
                ├──────────────────────────┤
                Phase 4: platform.btpma.org (LMS)
                      ├──────────────┤
                      Phase 5: AEMP Dashboard
                            ├──────────────────────────┤
                            Phase 6: Estate Trust Directive
                                                  ├──────────────────┤
                                                  Phase 7: Integration + Launch

MILESTONE MARKERS:
  Week 2:  ★ VPS live, WordPress installed
  Week 4:  ★ SSO working, btpma.org members can log in
  Week 5:  ★ educationministry.org live with Offer 0
  Week 8:  ★ Foundation course (Offer 1) content complete
  Week 10: ★ LMS fully operational (Offers 1-3 structure)
  Week 12: ★ AEMP Dashboard operational
  Week 14: ★ Estate Trust Directive core features complete
  Week 15: ★ Beta launch (50 members)
  Week 16: ★ PUBLIC LAUNCH
```

Appendix A: Development Best Practices for Vibe Coders

Golden Rules

1. **Never edit production directly.** Always use GitHub → push → auto-deploy.
2. **One plugin per custom feature.** Don't modify theme files; create a plugin.
3. **Use WP-CLI for bulk operations.** `wp plugin update --all`, `wp cache flush`, etc.
4. **AI-first for content.** Feed vault PDFs to TurboScribe/ChatGPT → polish output → publish.
5. **Test on staging first.** Create a staging subdomain (staging.btpma.org) for major changes.
6. **Back up before every deploy.** UpdraftPlus one-click backup before any update.
7. **Keep plugins minimal.** Every plugin is a potential security hole and performance hit.
8. **Use Cursor AI for code changes.** Describe what you want in natural language → review → commit.
9. **Document everything in this document.** Update this architecture doc when you make changes.
10. **Ask AI before Googling.** Abacus AI, ChatGPT, and CodeSpring can solve most issues faster.

Appendix B: Security Checklist

#	Security Measure	Site(s)	Priority	Status
1	SSL certificates (Cloudflare) for all domains	All	P0	Pending
2	Wordfence firewall on all WP installations	All	P0	Pending
3	Two-factor authentication for all admin accounts	All	P0	Pending
4	SSH key-only access (disable password auth)	VPS	P0	Pending
5	UFW firewall (allow only 80, 443, 22)	VPS	P0	Pending
6	Fail2Ban for SSH brute force protection	VPS	P1	Pending
7	Database user permissions (least privilege)	VPS	P1	Pending
8	JWT token expiration (24-hour max)	btpma.org	P1	Pending
9	Rate limiting on auth endpoints	btpma.org	P1	Pending
10	Encrypted document vault (AES-256)	estate-trust-directive	P1	Pending
11	Daily automated backups to remote storage	All	P1	Pending
12	Content Security Policy headers	All	P2	Pending

#	Security Measure	Site(s)	Priority	Status
13	Regular plugin/theme updates (weekly check)	All	P2	Pending
14	Disable XML-RPC on all sites	All	P2	Pending
15	Hide WP version and login URL	All	P2	Pending

Appendix C: Glossary of Terms

Term	Definition
AEMP	Academy of Estate & Ministry Platform — the operational dashboard for ministry leadership
As Above, So Below	The principle that federal constitutional limits flow down to state and local government — the core teaching framework
BTPMA	Building Through Private Membership Association — the parent organization
Civic Architect	A person who has progressed through the curriculum to the point of being able to build and teach the constitutional framework
Corpus Delicti	“Body of the crime” — the principle that an injured party must exist for government agents to initiate contact
Ejusdem Generis	Legal interpretation principle: general words following specific words are limited to the same kind
Estate Trust Directive	The comprehensive estate and trust administration framework (Offer 4)
Expressio Unius	Legal interpretation principle: mentioning one thing excludes others
False Personation	The crime of impersonating an officer of the United States (18 USC §912)
Fiduciary	The highest tier member who manages estates and trusts; one with a duty of care
H.E.M.S.	Health, Education, Maintenance, Support — the four standard categories for trust distributions
In Pari Materia	Legal interpretation principle: statutes on the same subject should be interpreted together
JWT	JSON Web Token — the authentication token format used for SSO
LMS	Learning Management System — the course delivery platform

Term	Definition
Noscitur a Sociis	Legal interpretation principle: a word's meaning is determined by its surrounding words
PMA	Private Membership Association — a lawfully organized private body
SSO	Single Sign-On — one login works across all sites
TILA	Truth in Lending Act (15 USC §1601) — consumer protection in lending transactions
Vault	The source knowledge repository (16 PDF transcripts) from which all curriculum is derived
